

## Our Purpose

*„The foundation of diversity is uniqueness.“  
Ernst Frestl*

We respect every person as an individual and see ourselves as guests in the personal space of our clients. Our clients are treated and cared for according to their wishes.

For us as a care service, this particularly applies to people who are ill or in need of care, as well as those with special needs.

As a family-owned company, we support LGBTQI-rights and people with a migration history. In our organisation we welcome people regardless of their age, religion, home country, gender or sexuality. Furthermore, we value sustainability very highly.

We do not judge about different lifestyles. In our team, we treat each other with respect and as equals. Of course, the same applies to our clients.

*„In diversity there is beauty and there is strength.“  
Maya Angelou*

We value the strengths and weaknesses of each of our team members. As a company, we strive to evolve constantly to advance the care for the future. We do not judge mistakes. They are part of that development, and it is our duty to work on it and improve. In our team, we support and encourage everyone for the good work they do and their specialist qualifications.
